Core Fallback procedures

Announcement: Invitation to participate to the online public consultation for Fallback procedures within Core CCR – until 27th of April 2017

Dear Market Participant,

The Core TSOs have worked out a public consultation document regarding the Fallback procedures within Core CCR. In addition to the Consultation Document, an online survey is initiated to receive the valued opinion of market parties.

The public consultation document and survey are now available on some TSOs website and within a dedicated section on the ENTSO-E website:

<https://consultations.entsoe.eu/markets/core-tsos-proposal-for-fallback-procedures>

An online survey is at your disposal, asking for your feedback on the consultation document. We would like to remind you that only comments made via this channel will be officially considered.

Your feedback on this consultation document by the 27th of April 2017 at 00:00 CET the latest would be very much appreciated. Please use the following link:

<https://consultations.entsoe.eu/markets/core-tsos-proposal-for-fallback-procedures/consultation/intro/>

Please note that responses on this consultation will be communicated in a non-anonymous way to regulators after consolidation. Market participants will be provided with anonymous results.

Best regards,

The Core TSOs
