

Date: 1<sup>st</sup> of April 2026

CE TSOs and iTCP are pleased to provide the attached documents for the first amendment of the CE DA CCM for public consultation and the related explanatory document.

Following the approval of the CE DA CCM (17/09/2025), CE TSOs and iTCP are preparing the first amendment of the CE DA CCM for submission to NRAs by 17/07/2026, 18 months after the formal submission of the CE DA CCM, in parallel to the implementation track of CE DA CC by 15/01/2028.

CE TSOs and iTCP have published the first amendment of the CE DA CCM and the explanatory document for Public Consultation on 2<sup>nd</sup> April for the duration of 4 weeks.

During the preparation of the first amendment of the CE DA CCM, CE TSOs and iTCP have introduced changes to align the CE DA CCM with the changes proposed by Core TSOs in the Core DA CCM 4<sup>th</sup> amendment and Core ID CCM 6<sup>th</sup> amendment which are currently under approval by NRAs.

As a result, CE TSOs and iTCP expect feedback during the public consultation primarily on the CE specific changes made as detailed in the explanatory document related to Article 25 (update of CZC after SDAC to be used for ID), calculation of ramping constraints, and allocation constraints in SDAC fallback.

During the next months, before the final submission, CE TSOs and iTCP will assess the outcomes of the Core DA CCM 4<sup>th</sup> amendment and Core ID CCM 6<sup>th</sup> amendment approvals by NRAs which may bring changes to the submitted version to NRAs in July.

The participation of the iTCP in the update of CZC after SDAC, is linked to the right to adjust these ID ATCs as a transitory solution until CE ID CC is implemented. As this adaption of the CE DA CCM is still being discussed with NRAs it may therefore be subject to change until the final submission of the methodology.

Best regards,

**CE Transmission System Operators & Integrated Technical Counterparty**
